THE CIVIC ELECTIONS.

Rousing Meeting of Electors in the City Hall Saturday Night --The Mayoralty.

Councillors Grant and Higgins Explain Their Positions on the Several Topics.

The City Hall was crowded on Saturday evening with ratepayers and friends of the aspirants for municipal honors. Shortly after eight o'clock Coun. Pearse moved, seconded by Coun. Higgins that His Worship Mayor Fell take the chair. Carried.

His Worship opened the meeting by stating that the electors were called together to discuss municipal questions and he trusted the candidates would be accorded a fair hearing. He hoped the electors would select the best men for positions at the municipal board. He would not detain them by making a long opening speech, but would say a few words before the meeting closed. He then called on Coun. John Grant to address the meeting.

Coun. Grant on coming forward was received with applause. He said it did not matter who spoke first, but he thought it would be only proper to allow the first speaker to answer any questions and reply to statements made by the gentleman succeeding him. He always wished to be accorded fair play and was always willing to grant the same to anyone else. Continuing, he said: "I will not go outside of Municipal affairs, and there is but one subject on which I am compelled to say a few words before speaking on the question of civic government. A statement has been extensively circulated, and impressed upon the minds of the ratepayers, which I must disabuse your minds of before proceeding further. It has been stated that I am more of a Vancouverite than a Victorian. Allow me to dispel that report by saying that I have interests in Victoria eight times greater than I have in Vancouver. This city is my home and I am connected by family ties with those who have large interests here. I have been a councillor for the past three years, and, perhaps, I have not pleased all; but I have tried to do my duty. I am pleased to say that the municipal revenue has increased lately, principally through the re-adjustment of the assessment roll. My own taxes have been doubled, but I did not complain because I am willing to contribute my share towards the improvement of this city. The revenue this year will be increased by $10,000 and I have been assured that the total revenue to be derived for this year will be in the neighborhood of $142,000. The drainage question is of great importance, and if I have the honor to be returned the drainage of this city will receive my earnest attention. This city should be made attractive and a sum of money should be expended in beautifying Beacon Hill. The drives around this city should also be improved and the place made attractive in order to induce tourists to visit us. Regarding the streets, I am of the opinion that owners of property should make provision for streets whereby a grocer's wagon can drive to the houses. There is another subject which touches this city most directly and that is the withdrawal of the mail subsidy granted to the steamers running between Victoria and San Francisco. [Applause.] The outgoing Council and the incoming one should take this matter up and express their disapproval of this action in a most tangible manner. Many poor people use this route, and it would be a serious blow to this city if the subsidy should be discontinued. I now come to the most and all-important question—the water works. You are all well acquainted with what is called the Hendry scheme, and as there was considerable opposition to that scheme in the Council, Messrs. Hargreaves and Bell were engaged to report upon it. On the 24th of August a report was submitted to the Council, signed by the speaker and Coun. Pearse, recommending that the services of a non-resident engineer be employed to report upon the whole scheme, and that his decision be considered final. This was voted down by the Council, six councillors voting against the report and three in its favor. On October 5th, during my absence from the city, Coun. Barnard introduced a minority report which was carried, and strange to say, it was practically the same resolution which the six councillors voted down on August 24th. I spoke in favor of engaging Mr. Keefer, and after that gentleman handed in a report favoring the Summerfield scheme, I stood up in the Council and stated that I would support the Summerfield scheme provided an approximate estimate of the cost of this large undertaking was submitted. At a meeting of the Council after my return from the north Coun. Pearse and myself submitted a report recommending that estimates be prepared for the guidance of the Councillors and ratepayers in connection with the proposed expenditure in connection with the scheme. Councillor Pearse went further than I did on this question. I would ask any reasonable man in this large audience whether our request was not a reasonable one? Any business man will not undertake a gigantic work without approximate estimates, and for that reason only I opposed the scheme (hear.) I would be inconsistent in favoring the Hendry scheme after signing a report in favor of engaging a non-resident engineer to report on the two schemes. I again say that the cost of a work of this magnitude should have been before us when the expenditure of so large a sum of public money was involved (applause). Chief Justice Begbie considered that we were right, and would not force His Worship to attach the seal to the Albion Iron Works contract (applause). I have no objection to people spending their own funds, but when they wish to expend other people's a little more care should be exercised. Coun. Coughlan issues a card stating that the Summerfield scheme will cost $129,543.34. I am not prepared to accept these figures as being entirely correct. No one knows better than I do that this city requires a better supply of water, and I am in favor of procuring it as soon as possible. It is not shown in Mr. Summerfield's scheme that water will go higher than Mr. Nesbitt's gate when the city is drawing 1,400,000 gallons through the 16-inch main. Coun. Pearse and myself were referred to Mr. Summerfield, and although it was not the duty of the Water Committee to go to that gentleman for information, we spent one afternoon in his office looking over the plans. After looking carefully over everything he had to show we asked for an approximate estimate of the scheme, and were told that he could not give it to us. I told Mr. Summerfield that I would put aside my position as a Councillor and would ask him, as a friend, to let me know within $10,000 of the cost of his scheme. I said: "If the estimate is reasonable we will assist in putting it before the people, for they must be the judges." Mr. Summerfield replied that he could not give us an estimate. Since the report was received from Mr. Keefer I have not said one word in favor of the Hendry scheme. I am willing to vote for any scheme which receives the assent of the ratepayers. The route of the pipes over Cook street is better than through that portion of the city where rock blasting is necessary. I am prepared to answer any questions you may put to me. After residing 25 years in the Province, I can say that I have no reason to feel ashamed of any action done in my public career. [Applause.] If elected I will endeavor to serve your interests to the best of my ability and, as I have served the public in many capacities, I will consider it a great honor to receive your support at the forthcoming election. [Applause.]

Coun. Higgins next addressed the meeting and said he was grateful to Coun. Grant for favoring him with an opportunity of addressing the electors. He then went into the water works question and said the Chief Justice endorsed the opinion of a majority of the Council. Mr. Bulkley was in favor of a new main in 1874, and it would be folly to construct reservoirs. He read figures to prove that the Summerfield scheme would cost $129,543.34. He contended that steel pipes had been tried elsewhere and found satisfactory. He dwelt on the two schemes for a considerable while, and said if elected his own personal views would not block legislation or drive him down the corkscrew.

Coun. Grant, in replying to Coun. Higgins, said I will only refer to one or two matters touched upon by the last speaker. It is well known that Mr. Higgins has a suave way of putting things before the people, and he does it in such a manner that he almost convinces them that I said things which were not correct. Regarding my statement at the Council meeting in reference to Mr. Keefer's report, I did not say the whole report is ridiculous, but I did say that any school boy knew that the pipes proposed would give as much water as the situation would permit. Surely Mr. Keefer was not engaged to tell us something that a common school boy knew. He was engaged to inform the people regarding furnishing water where the situation does not permit. Regarding the ownership of THE TIMES I may say that I have no claim on that paper. Coun. Higgins holds a mortgage on the *Colonist* and has really a claim on that newspaper. If you have a 16-inch main which will give the city a greater supply, it will be necessary to have filter beds and Mr. Pickering's report will show that he considered the present filter beds, at Beaver Lake, inadequate for the 12-inch main. If elected I will be thankful; I will not grumble if the ratepayers consider that I am not entitled to the position. [Applause.]

His Worship said he occupied the position of Mayor for the past two years, and he was sick and tired of the same old story which he heard again to-night. Before he retired from the position he wished to briefly state his views on the subject. When drainage was spoken of the City Council looked all over the world for a competent man. They brought Mr. Pickering here, and he favored the Hendry or reservoir scheme. The city will have no protection in case of fire should the Summerfield 16-inch main burst. When the late fire occurred on Fort street the main was broken, and had only been repaired one hour before the fire occurred. He advised the electors to beware of the taffy and soft soap given them. Coun. Higgins had said he was the worst Mayor that ever occupied the position, and his (Coun. Higgins') satellites said that the speaker was a most ignorant man. He had opposed the schemes of the immortal six, and would not be browbeaten by Coun. Higgins. They thought His Worship would back down when he received a summons like he did in the Bell case, and they whispered around that a summons would frighten him into attaching the seal. The summons came, but he fought them in the Supreme Court and ignominiously defeated the ring. His Worship alluded to the reforms brought about during his term, and pointed out that through his efforts the councillors were compelled to vote openly. Coun. Higgins thought the almighty six could make the Mayor accord with their sweet will, but he found that it was a mistake. His Worrespected Mr. Keefer, but that gentleman was not asked to value the water works. The water works is not properly managed, and the Chief Justice's judgment will show that the $75,000 can only be expended in a complete system. Mr. Summerfield's will cost $250,000. One of the largest owners of iron works in the world is in this city; this gentleman says the proposed steel pipes will not last for more than five years; the chemicals in the clay will destroy them. The metal in these stove-pipes will be of the worst kind. The water in Elk Lake is good at certain seasons, and medical men state that it is not injurious at any time. Let people keep filters in their houses, and keep bad whiskey out of the water, and it will do no harm at any time. [Laughter.] The electric light was another swindle. His Worship said the Council had been poisoned with reports. Mr. Bell reports favorably on a scheme one day and by some extraordinary wire-pulling he swallows the report the next. Coun. Higgins had asked why no bargain was made with Mr. Bell. His Worship would reply by saying that he and Coun. Pearse thought Mr. Bell was an honorable man. Another fine piece of work was the appointment of a policeman. The Chief of Police said the man was not fit for anything excepting to draw his pay. His Worship objected to the selection, but a few days afterwards was surprised to find the man in the police court room with Coun. Higgins and another Councillor waiting to be sworn in. His Worship, in conclusion, said that money would not hire him to preside over such a Council for another term.

A vote of thanks was given the Mayor and after giving three rousing cheers for His Worship the meeting closed.

Crowded Out.

THE FISHERIES COMMISSION.

LONDON, Jan. 7.—The *Daily News*, commenting upon the re-assembling of the Fisheries Commission, presumes that Lord Salisbury will offer no objection to a reference of the defined points in dispute to a regular arbitration as suggested, and says that such a reference would be a wise method of ending the dispute.

THE CANADIAN MILITIA.

LONDON, Jan. 6.—General Middleton's paper in *Colburn's United Service Magazine* on the Canadian militia is attracting much attention in military circles. General Middleton says that he will back the Canadian officers and gunners to fight their guns against any artillery in the world.

I do not understand why Lord Stanley, of Preston, should be selected by the papers for this post. There is no reason to believe that he has any wish for a colonial appointment, and it is well to remember that he is heir to the richly endowed Earldom of Derby.

THE ALLAN'S CONTRACT.

OTTAWA, Jan 7.—The Allan line, whose contract with the government expired some time ago and which is now running under a temporary arrangement, received a $125,000 subsidy per annum from the Dominion of Canada for carrying the mails. Tenders for the new service are greatly in excess of this amount, but the government is determined now, at any cost, to place the fastest line of steamers it can secure on this route and to make it exclusively Canadian service. This is but a forerunner of the Canadian Pacific mail route to China by way of Vancouver.

ANOTHER RAILWAY ACCIDENT.

NEW YORK, Jan. 6.—The Canadian Pacific passengers who arrived from the west to-day describe Wednesday's accident at Middleton, where two freight trains met on a trestle eighty feet high between one and two o'clock Wednesday morning. The engine of the west bound train became fastened in the trestle work and stuck there, while the tender and several cars jumped over the top and went to the bottom. The engine coming from the east went through the trestle immediately after the collision, and took down a number of freight cars. The two engineers, one fireman and one brakeman were killed outright. One man wedged under the wreckage was noticed to be alive, and one of his comrades undertook to remove him by grasping his hand. The rescuer was horrified when he broke the man's fingers, which had been frozen while in this deplorable condition. Another man was seen underneath the wreck, all his body being visible except his head, which was horribly mangled. Nobody seemed to know the cause of the accident. It was thought that the men had been too long on the train going east and had fallen asleep.

THE LOCAL ELECTION.

The writ issued by Mr. Speaker POOLEY, calling upon the electors of this city to select a fit and proper person to fill the vacancy caused by the resignation of Major PRIOR, in the Legislative Assembly reached Mr. Sheriff McMILLAN on Saturday. He at once issued his proclamation fixing the date for the nomination for the 23rd, and the polling for the 25th instant. "Forthwith" was the rule observed in this instance, forming a marked contrast to the course pursued by the government in the Comox vacancy. The time, therefore, is short, rendering it necessary for those opposed to the government to be up and doing without delay. Already there are three candidates in the field: Messrs. E. B. CARMICHAEL an avowed oppositionist, W. A. ROBERTSON, whose views will be made known by him to the electors shortly, and Mr. SIMEON DUCK as a supporter of the government. It will now be for the electors to say which of these gentlemen they prefer. They are asking the suffrages of the electors for a coveted position, and it is but right that their views on the leading questions of the day should be ascertained.

THE SUBSIDY QUESTION.

In accordance with the resolution passed by the Board of Trade, at its meeting last Friday, Mr. E. CROW BAKER, M. P., sent the following by telegraph to the Postmaster-General, relative to the withdrawal of the subsidy to the San Francisco steamers:

VICTORIA, 6th Jan., 1888.

The Hon. A. W. McLELAN, Postmaster-General, Ottawa:

Great consternation here regarding summary withdrawal of San Francisco mail subsidy. Regarded here as a breach of the terms of union. Please wire intention of government.

E. CROW BAKER, M. P.

In response to this dispatch Mr. BAKER received the following, which appeared in the columns of a morning contemporary. It will be observed that the reply is dated at Ottawa, the "9th," evidently a typographical error:

OTTAWA, Ont., Jan. 9th.

To E. C. Baker, Esq., M. P., Victoria:

The San Francisco mails continue by the same route as for months past. There has been no summary change. The wish of the government is that British Columbia shall have the benefit of improved modes of mail service, both via Vancouver and San Francisco.

A. W. McLELAN.

It will be observed that the Postmaster-General evades the point raised by Mr. BAKER regarding the breach of the terms of Union. What advantage is it for our merchants to have their correspondence sent to San Francisco *via* Vancouver? For some months back the mails to and from this city for the south by the overland route have been received and dispatched daily, instead of by the regular weekly steamer as heretofore existing for many years. The growing importance of the city's trade and commerce demanded increased mail facilities. The withdrawal of the subsidy from the San Francisco line of steamers is of grave importance to this city. It is a breach of the terms of Union as pointed out by Mr. BAKER. Unless the step taken by the government is reconsidered, the cancelling of the mail contract may possibly result in the line being withdrawn from calling at this port. The effect such a course would have upon the city's trade and commerce can easily be conjectured. Traders, however, who are in the habit of receiving their weekly supplies by that route, will now realize how far they are entitled to be grateful to the Ottawa Government for its spirit of fair play to Victoria. What will become of our fruit supply should the step hinted at by Mr. R. P. RITHET be taken by the Pacific Coast Steamship Company? The withdrawal of the subsidy and the enforcement of obnoxious custom house regulations by the Ottawa Government in reference to the Chinese steamers, are bound to cripple the importance of Victoria as the commercial, shipping, social and political metropolis of the North Pacific. Yet this is the gratitude showered upon Victorians for their slavish support of the government, which is determined to give the city a pair of black eyes. Will the electors quietly submit to such treatment? If so, they richly deserve their punishment.

ANOTHER SHUFFLE OF THE CARDS.

For some days back it was whispered about the city that important changes in connection with the Cabinet were on the tapis. Rumor had it that the Hon. JOHN ROBSON was to retire into the vacant Senatorship. The fresh blood to be introduced was believed to be Mr. THEO. DAVIE, and, possibly, Mr. D. W. HIGGINS. We now know from an extra of the British Columbia *Gazette*, issued late on Saturday afternoon, that part of the programme sketched by us some time since has been carried out. The Hon. JOHN ROBSON becomes premier for the time being, the Hon. A. E. B. DAVIE having resigned that position, but still retaining the office of Attorney-General. As he is not likely to be able to attend to the duties of his office for some time, his brother, Mr. THEODORE DAVIE, Q. C., one of the members for this city, has been appointed a member of the Executive Council, accepting office without a portfolio, to assume the duties of the office of Attorney-General, the remuneration for which, no doubt, will be a matter of arrangement between the two brothers. It is not necessary for Hon. THEODORE DAVIE to appeal to his constituents for a confirmation of his conduct, that is avoided in consequence of the arrangement already referred to. This is another instance of a representative representing himself instead of the electors whose interests he was elected to watch and guard. It is a family affair of which the public have something to say and, doubtless, more will yet be heard of it. The refractory THEODORE is now whipped into harness and must be submissive to the wishes of his superiors. But what of the junior member for Esquimalt? It is evident his grip on the government is a very slender one, else why are his claims so shamefully overlooked and ignored? Positively we sympathize with him in the cruel treatment accorded him by those whom he claims to have pitchforked into their present positions. The now reconstructed cabinet is composed of the

Hon. JOHN ROBSON, Premier and Hon. A. E. B. DAVIE, Attorney-General.
Provincial Secretary.
Hon. R. DUNSMUIR, President of Council.
F. G. VERNON, Chief Commissioner of Lands and Works.
J. H. TURNER, Provincial Treasurer.
THEO. DAVIE, Acting Attorney-General.

It will be interesting to observe the harmony which will prevail amongst such discordant elements. The spoils of office may have the effect of soothing down many of the asperities and differences of opinion known to exist between the leader of the government and his junior minister, the representative and protege of Mr. D. W. HIGGINS, in the Cabinet.

Notice is also given revoking the previous proclamation proroguing the Assembly till February and calling the House together for the dispatch of business on Friday, the 27th instant.

PERSONAL AND POLITICAL.

Toronto Mail.—Here is a solid fact. Mr. Wallace's salary was $2400. He will receive a pension of probably $1000. Mr. Shakespeare will take the $2400. The two gentlemen will thus draw $3400, though Mr. Wallace could well do the work for some years."

It would appear that the China tea trade is suffering by the severe competition arising from the extensive and improved culture of tea in India. The broad difference between Indian and Chinese tea cultivation is that between *grande* and *petite* culture. In India the plantations are of great extent and have a large capital sank in them; the latest and most scientific modes of growing, picking, firing, packing, etc., with all the latest machinery are in use. The Chinese growers have an acre or so each; they sell the leaf to an itinerant purchaser who keeps it till he has collected enough to make it worth his while to fire it; when it has lost much of its flavor; all the modes of treating it, are those in vogue for centuries; now the products of the highly organized plantation system, with its effective and rapid treatment by machinery, are naturally beating those of the small Chinese farmer.

Who is Your Best Friend?

Your stomach of course. Why? Because if it is out of order you are one of the most miserable creatures living. Give it a fair, honorable chance and see if it is not the best friend you have in the end. Don't drink in the morning. Don't smoke in the morning. If you must smoke and drink wait until your stomach is through with breakfast. You can drink more and smoke more in the evening and it will tell on you less. If your food ferments and does not digest right,—if you are troubled with Heartburn, Dizziness of the head, coming up of the food after eating, Biliousness, Indigestion, or any other trouble of the stomach, you had best use Green's August Fower, as no person can use it without immediate relief. *

A Common Cold

Is often the beginning of serious affections of the Throat, Bronchial Tubes, and Lungs. Therefore, the importance of early and effective treatment cannot be overestimated. Ayer's Cherry Pectoral may always be relied upon for the speedy cure of a Cold or Cough.

Last January I was attacked with a severe Cold, which, by neglect and frequent exposures, became worse, finally settling on my lungs. A terrible cough soon followed, accompanied by pains in the chest, from which I suffered intensely. After trying various remedies, without obtaining relief, I commenced taking Ayer's Cherry Pectoral, and was

Speedily Cured.

I am satisfied that this remedy saved my life.—Jno. Webster, Pawtucket, R. I.

I contracted a severe cold, which suddenly developed into Pneumonia, presenting dangerous and obstinate symptoms. My physician ordered the use of Ayer's Cherry Pectoral. His instructions were followed, and the result was a rapid and permanent cure.—H. E. Stimpson, Rogers Prairie, Tex.

Two years ago I suffered from a severe Cold, which settled on my Lungs. I consulted various physicians, and took the medicines they prescribed, but received only temporary relief. A friend induced me to try Ayer's Cherry Pectoral. After taking two bottles of this medicine I was cured. Since then I have given the Pectoral to my children, and consider it

The Best Remedy

for Colds, Coughs, and all Throat and Lung diseases, ever used in my family.—Robert Vanderpool, Meadville, Pa.

Some time ago I took a slight Cold, which, being neglected, grew worse, and settled on my Lungs. I had a hacking cough, and was very weak. Those who knew me best considered my life to be in great danger. I continued to suffer until I commenced using Ayer's Cherry Pectoral. Less than one bottle of this valuable medicine cured me, and I feel that I owe the preservation of my life to its curative powers.—Mrs. Ann Lockwood, Akron, New York.

Ayer's Cherry Pectoral is considered, here, the one great remedy for all diseases of the throat and lungs, and is more in demand than any other medicine of its class.—J. F. Roberts, Magnolia, Ark. ††

CHOPIN.

Ah, what celestial art!
And can sweet thoughts become pure tone and float,
All music, into the tranced mind and heart:
Her hand scarce stirs the singing, wiry metal—
Hear from the wild rose fall each perfect petal!

And can we have, on earth, of heaven the whole!
Heard thoughts—the soul of inexpressible thought!
Roses of sound,
That strew melodious leaves upon the silent ground;
And music that is music's very soul,
Without one touch of earth—
Too tender, even, for sorrow; too bright for mirth. —R. W. Gilder.

THE ROAD AGENTS.

There were five men of us in one of the old Mariposa stage coaches before the days of the railroad, and it was 5 o'clock in the afternoon of an August day. We were on our way to Stockton, and of the passengers one was a lieutenant in the regular army, another a tourist in search of health, a third a ranchman, and the other two were prospectors and miners. None of us had met each other previous to the start. Those were perilous times, and the first half hour was spent in sizing each other up. I don't know to what conclusion the others came, but I looked over the four men and said to myself:

"The lieutenant ought to fight in case we are attacked, but he seems too nervous to be game. The tourist is ill and has no sand, but the ranchman and prospector can be depended on."

At that time the coach which was not stopped twice out of five trips was considered very lucky. In some few instances the robbers were driven off, but in most cases the passengers submitted to being "held up," and were glad to get off with nothing worse. I had with me over $6,000 in bank bills and gold, and I was determined not to part with that money without a fight. The ranchman had $4,000, and the miner about $3,000, as afterwards learned, and both had determined to fight. We had just forded the Merced river, and had come to a lonely stretch of road, when the ranchman pulled his revolver and examined the caps. It was not yet restored to the holster when we heard a shout, the report of a pistol, and the stage came to a full stop. I reached for my pistol, as did the miner, knowing that robbers were at hand, but before mine was out the lieutenant flung his arms around me and cried out:

"For God's sake make no move or we shall be murdered! Let them take all we have!"

At the same time the tourist flung himself upon the miner, and neither of us had a weapon out when a robber showed himself at either door. The ranchman was ready, however, and he killed the man on his side. He would have also killed the other, but his revolver failed on the second shot, and the robber pushed his revolver in and fired with the muzzle pressed against the poor fellow's heart. A third robber then came up, and we were covered from either door and called upon to surrender. The jig was up, and we climbed out, delivering our pistols butt foremost as we left the stage. There were four of us and only two robbers, but when a man has the drop on you and means business it's no use to kick. We were placed in a row, and while one of the fellows kept us covered the other went through each man in turn. The lieutenant shelled out a watch and $40, the tourist a watch and $400, and they got from the other two of us the sums I have previously named. I had my bank bills in my bootlegs, but as we were forced to strip to our shirts, they found every last dollar. While we were dressing the body of the ranchman was pulled from the coach and stripped and robbed.

I have no doubt that the robbers meant to shoot every one of us after securing the plunder, in order to avenge the death of their comrade, but the unusually large booty put them in good spirits, and they underwent a change of heart. The one who searched us stepped over the dead body a dozen times without seeming to care whether it was a log or a man. When finally through with us he bent over the body and began robbing it, saying to his companion:

"Bill won't have any more use for money, and we might as well take his dollars along. Poor Bill! We shan't never play poker together again."

When they were ready to go they cut the harness so that the stage would be detained a couple of hours, broke up or carried off every firearm, and drank to our health from a flask the tourist had with him. They made off for the foothills to the east, having so little care for us that neither of them once looked back. I was mad and no mistake, and the miner gave utterance to his feelings in curses which almost cracked the stones around us. We had been robbed of our every dollar, and, with the money, our every prospect. The tourist could get more at Stockton, and the lieutenant was out only a few dollars any way. I was not yet dressed when he began to put on airs over us, claiming that if we had not been so hasty he would have managed the affair to the defeat of the robbers. This added to my anger and I sailed in and pounded him until he yelled for mercy.

It was just sunset when the stage was ready to go on, but there were two of us who did not propose to go that way. We were unarmed, but determined, and while the stage lumbered off down the rough road we found a club apiece and set out on the trail of the robbers. Luckily for us, the miner had been long in the country and seen a good deal of the hunter's life. We therefore had no difficulty in following the trail until darkness came on. The fellows made directly for the foothills, and we had no doubt that they had some sort of a cave or stronghold out there. They took matters so coolly that they could not have been a great ways ahead of us when darkness fell. I was then for resting until daylight, but the miner urged that we should push on. From the topography of the country he felt certain that a ravine or rift would be found not far away. We were then between the foothills and the true mountain in a narrow valley, and the full moon had come up. Without this light we could not have made our way, as the ground was much broken and bowlders lay thickly scattered about.

We went ahead very cautiously up this valley for about a mile, and of a sudden a rift opened to the left, and the glare of a camp fire greeted our eyes. It was not over 200 feet away, and after a minute we made out the forms of the two men as they seemed to be preparing supper. We had found them, but what of it? They had all the arms and we were defenseless. We crept back a few yards to hold a consultation, and the miner carefully studied the lay of the land. He was of the opinion that it was a short, dry rift, with a cave at the far end. The two sides were inclosed by walls of earth and rock, and our only way was to attack the men from above. How high we would have to climb, or what the difficulties, we could not say. We were not three minutes deciding to make the attempt, and we prepared for it by leaving coats, vests, hats and boots behind. We began the ascent about 100 feet back from the mouth of the rift, and I do not believe two panthers could have done better. The side of the mountain was thickly covered with cedars, vines, and rocks, and progress was made almost entirely by creeping. Once we drew ourselves up a cliff full twenty feet high by a grapevine hanging down, and again we made use of a tree to seek a higher elevation. We had been going up for half an hour before we bore off to the right in the direction of the rift. We then had to move far more cautiously, and I presume it was a full hour from the time we left the valley before we lay on our stomachs 100 feet above the camp fire and looked over. The men were directly beneath us, seated close together, and were smoking as they counted the money.

We had but one way to attack. Luckily for us it was a straight descent. I could have dropped a coin fair upon the hat of the man beneath me. We were out upon a rocky shelf, but there were loose stones of all sizes all about us. I selected one weighing about twenty-five pounds, the miner got one equally as large, and we carefully crept back to the edge with them. The fall of the smallest pebble would startle the men below, and we used as much caution as if our lives would pay the forfeit. After a bit we were ready. The men had not moved. For about a minute I lost my nerve. It seemed a horrible thing to do. Had I been alone I believe I would have relented. The miner seemed to read my thoughts, and he put his mouth to my ear and whispered:

"Remember how they shot the ranchman, and remember that they take our every shilling!"

We poised the stones on the edge of the cliff, and at a whispered "Now" from him we dropped them. I heard them strike, and drew back. He peered over, and after a moment recovered his balance and said:

"Now we can go down! Those chaps will never rob another coach!"

It took us longer to go down than to come up, but we made the descent in safety, and walked around to and up the rift. The fire had nearly died out. We replenished it and then saw that both men were dead. It was a horrible sight, and one I do not care to describe. Our rocks had fallen squarely down on their heads, and you can imagine the result. There was a dry, airy cave but a few feet away, and the gang had made the place a rendezvous for a long time. We recovered every dollar our coach had been robbed of and more than as much again, which had been taken from others. The cave had a big supply of firearms, blankets and provisions, and in a mail bag hanging on the wall were ten gold and silver watches. We got altogether sixteen watches, five or six valuable pins and firearms worth at least $600. We not only secured the wealth, but we made an even divide and kept every dollar of it. An attempt was made in Stockton to compel us to "divvy" with several people who had been robbed, but it was a failure. As the tourist was out of ready cash we gave him $200, but we would not even sell the lieutenant back his watch at any price. It was told all over the slope that our haul amounted to $25,000. If it did we earned every dollar of it, besides wiping out a bad gang and leaving the stage line clear for the next six months.—New York Sun.

Corrected Measurements.

Recent measurements of Mount St. Elias and Mount Wrangel and other high peaks of the West show that Wrangel and not St. Elias is the highest. Mount Hood used to be called 16 000 feet high. Triangulation makes it 13,000, and an aneroid barometer made it 12,000, and a mercurial barometer 11,255. St. Elias, estimated at 12,672 feet high, proves to be 13,500. Wrangel rises 18,000 above Copper river, which is itself 2,000 feet above the sea level, and the mountain is at least 1000 feet higher than any other North American peak.

New Westminster Elections.

NEW WESTMINSTER, Jan. 9.—Mayor R. Dickinson has been re-elected by acclamation. Councillors: St. Patrick's Ward—J A Calbick and H L Dolleck by acclamation. Chief Engineer—S H Webb and W J Corbett. Assistant Engineer—H Read and J Henley. The election for Councillors is being mainly fought out on the question of the Sunday closing of bar-rooms. The two elected for St. Patrick's Ward are in favor of the by-law.

A Cordial Welcome.

Mr. J. B. Glover, who succeeds Mr. Robert Irving as resident agent here for the O. R & N. Co., and the Northern Pacific arrived from the south to-day. Mr. Glover is a genial gentleman, comes highly recommended from the Chicago, Burlington & Northern Railway, with which concern he was associated for many years. He now makes his bow to the shipping and trading community of Victoria and British Columbia, all of whom, no doubt, will extend to him a cordial greeting. It is claimed for him that he will prove himself to be a worthy successor to Irving, who now transfers his quarters across the street to the Canadian Pacific. The old friends and patrons of the Sound route and the Northern Pacific will find at Mr. Glover's office, every necessary information regarding these and other routes.

ADDRESSES BY THE CANDIDATES.

The City Hall was well filled with ratepayers this afternoon and were addressed by the aspirants for municipal honors.

It was moved and seconded that W. A. Robertson take the chair.

Councillor Grant said he had addressed a large number of electors on Saturday evening and did not consider it necessary to take up much time to-day. He considered that the China steamers should stop here at least for a short time. The largest city in the province is entitled to some consideration. He did not think it fair to increase our revenues without the consent of the ratepayers. He did not consider it proper to force the Mayor to sign a contract when he thought it illegal. The gentleman occupying a mayor's position can use a little tact and can accomplish much. He had handled thousands of dollars belonging to other people, and dared anyone to say that he had handled one cent dishonestly.

Coun. Higgins said no discourteous word had passed between himself and the other candidate for the mayoralty. There was no ring in the Council. The present Mayor has more power than the President of the United States. He considered that Vancouver wanted everything.

Messrs. Anderson, Kelly, Vigelius, Wrigglesworth, Gray, Coughlan, John Robertson, Styles, Wilson, Powell, Humber and Barnard also spoke.

POLICE COURT.

[Before His Worship the Mayor and Robert Ward, J. P.'s]

Lum Hip, the Chinaman on remand on a charge of conspiring to murder J. C. Vrooman Gardner, was before the court to-day. Mr. Thornton Fell appeared for the prosecution and Mr. Gannaway for the defense.

Mr. Gannaway asked that the prisoner be allowed out on bail and he considered the prisoner might be let out on $1,000 bail. He inquired into the case and did not consider the prisoner guilty.

Mr. Thornton Fell said that the document in his possession would prove that the conspiracy was a most serious one.

His Worship said the case was very serious and he did not wish to allow the prisoner out on bail which would permit of his leaving the city. The amount of bail would be $5,000.

Mr. Gannaway said the document produced was a very ancient one.

Mr. Thornton Fell—The document is dated July 8th, 1887, and cannot be very ancient. We are also prepared to prove that the prisoner had two daggers and a skull cracker in the possession when arrested. If the prisoner is admitted to bail good sureties should be forthcoming.

The Court remanded Lum Hip for eight days, and fixed the bail at $5,000.

Lim Sam is also charged with being a party to the conspiracy and was brought in from the provincial gaol to-day. The latter is awaiting trial on a charge of threatening to murder Mr. Vrooman-Gardner.

The Shooting Accident.

Joseph Harrod died in St. Joseph's Hospital on Saturday evening from the effects of the gun shot wound received on Finlayson's bridge a few hours before his death. Drs. J. S. and J. D. Helmcken did everything in their power for the wounded man. The body was removed to Mr. T. Storey's undertaking rooms and an inquest was held this morning.

THE INQUEST.

The inquest to inquire into the death of Joseph Harrod was held in the office of Dr. Jackson, Coroner, this morning. The following gentlemen were sworn as jurymen: W G Cameron (foreman), B Williams, Jessie Brown, M G Blanchard, Geo Mann, A B Erskine. The jurymen viewed the body at Mr. Storey's undertaking rooms and returned to the Coroner's office.

J. H. Meldrum, sworn—On Saturday afternoon last I was standing on Finlayson's bridge. The deceased was standing near me for half an hour or more. He had a gun in his hand. I picked it up after it fell from his hands and gave it to a gentleman in a buggy. Deceased was standing with the gun in front of him when it went off. He placed his hands on his stomach and said "Oh! oh!" There was a hack standing close by and we placed the wounded man in it. I told Mr. Luney to drive to the nearest doctor. When I picked up the gun both barrels were discharged and the hammers down.

Mr. Luney corroborated the evidence of the former witness.

J. D. Helmcken, M. D., sworn—The deceased was brought to St. Joseph's hospital on Saturday at 4 p. m., and was suffering from a gun-shot injury to the abdomen and chest; the abdomen was injured from about two inches above the *pouparts* ligament to the edge of the true ribs, the shots penetrating and breaking the eighth and ninth ribs and coming out below the third rib and breaking the seventh, sixth, fifth, and fourth ribs, lacerating the lung, breaking open the pleura and injuring the heart. Deceased was unconscious and died in twenty minutes.

The jury brought in the following verdict: "That the said Joseph Harrod came to his death from a wound caused by the accidental discharge of a shot-gun in his own hands."

Sergt. Sheppard produced the marriage certificate of deceased which states that his name is Joseph Harewood; married at Leamington Priors, Warwick, England. He is supposed to have friends in London, Ontario.

Funeral.

The mortal remains of the late W. D. McLellan, were deposited in Ross Bay cemetery this afternoon. A large concourse of sorrowing friends followed the remains to their last resting place.

Death of a New Brunswicker.

New Westminster, B. C., Jan. 9.—Thomas D. Forbes, a native of St. John, New Brunswick, died here last night, aged 46 years. The deceased was a shipcarpenter by trade. He came to this province eleven years ago and resided at Moodyville.

The National Fallacy.

It is reported that the Redpath sugar refinery, Montreal, has been shut down for repairs for a couple of months. The St. Lawrence is now frozen over solid, so also are the upper lakes. The market is pretty well cleared out of this highly necessary commodity. The Redpath's refinery is the only one in operation in Quebec. The outlook is that a stiff advance will take place in prices.

Victoria vs. The Mainland.

Says the Toronto *Monetary Times* of the 30th ult: There exists, we are told, an interesting and amusing jealousy between the City of Victoria, B. C., and the spic and span new City of Vancouver, the terminus of the C. P. R., on the mainland. The China steamer won't land cargo, and break bulk at Victoria, in the same way that the Allan line won't break bulk at Quebec or at Londonderry, or the White Star or Cunard lines at Queenstown; Victoria consequently feels grossly insulted, and threatens the vengeance of all the gods of Victoria, of the provincial parliament, of the Supreme Court, of the Admiral of the fleet at Esquimalt (some three miles distant), and of the Colonel of Militia. This amusing position is as it ought to be, and we watch the development of events with interest. But Victoria has just secured a magnificent triumph over the City of Vancouver, and all its wiles and schemes. The Presbyterians of Victoria, to show what is due to the dignity of the capital city, have invited Rev. P. McF. McLeod, of Toronto, to become their pastor at a salary of $3,500 a year which is an advance of about 200 per cent. on what has been previously paid by this body to its pastor. It is needless to say that no clergyman in the Province of British Columbia will be so well paid as he from the voluntary offerings of the people. Hence, the triumph, commercial and ecclesiastical of Victoria! The Episcopalians of Victoria, in the Island of Vancouver, pay their clergy better than on the mainland, but the people do not pay, inasmuch as Miss Burdett-Coutts, that was, gave some money to teach British Columbians in Victoria the rudiments and the benefits of christianity. However, the Victorians think that the Presbyterians of Victoria have scored one for the honor and glory of Victoria, B. C., and are proud of them accordingly.

Okanagan News.

Mr. A. Postell is on a visit to Victoria. Wm. Postill is on a visit to Banff. It is said that he will bring with him a life-long partner.

The ball given at Vernon, formerly Priest's Valley, last week was the event of the season. It was kept up for three nights.

Mr. Chas. Balagnot lost a little girl by death shortly before Xmas. We are glad to say that his wife has recovered from her long illness.

Game is very plentiful, especially on the west side of Lake Okanagan. A party of hunters killed some 24 or 25 deer in a few days.

Mr. Geo. Whelan's wife presented him with a daughter some time ago. This is George's fourth daughter. There is hope for the bachelors in the rising generation.

The weather has not been very cold. There is just enough snow for sleighing. Cattle are in splendid condition. Ranchers have been feeding only a few days.

A court of revision was held here Nov. 23rd, Mr. Spinks, of Kamloops, was presiding as judge. A few changes of minor importance were made. Some of the rate payers are far from being satisfied with their increased taxation which the Government's million dollar loan has imposed on them.

Edward McDougall, a half-breed, was brought before Messrs. Thomas Woods and Fred Brent, J. P.'s, for selling intoxicating liquor to Siwashes on Christmas Day. He was fined $60 and costs, in all about $70. There are others doing the same thing who would do well to find honest employment.
